A little confused by our virtual platforms this year? Nothing to worry about!

We have a [Norwescon 43 Help wiki](#) that will be continually updated as we find and smooth over any areas of friction. This will often be the best place to start!

## **I just want to text chat without voice, but I can’t go into game tables! etc because it says I have no microphone!**

Airmeet will require you to have some kind of microphone plugged in to your computer. I just stabbed an old-set of headphones into the microphone jack on the computer = Windows thinks I had a microphone, so Airmeet let me go everywhere!

If you have wired cell-phone earbuds, you may also get around the microphone issue by plugging those into your computer.
